WORK EXPERIENCE

Emirates Flight Catering (Full-Time)

NOV 2024 - PRESENT

PMO Lead- Governance & Project Controls

Built and established the PMO Governance function supporting infrastructure and facilities projects across four business departments.

- Established and led the PMO Governance function, standardizing governance frameworks, project controls, executive reporting, and project assurance across a diverse portfolio of strategic projects.
- Governing 20+ active projects and 40+ projects since joining, ensuring governance compliance, schedule adherence, budget control, and quality assurance.
- Developed Power BI executive dashboards supporting 25+ projects, reducing manual reporting effort by 70% and providing real-time portfolio visibility for senior leadership.

- Conduct governance audits, project health reviews, milestone assessments, stage-gate reviews, project charter reviews, project closure governance, and lessons learned sessions.
- Lead executive portfolio reporting, KPI scorecards, RAID management, and governance compliance reporting to support strategic decision-making.
- Provide matrix leadership across Finance, Engineering, Procurement, Operations, contractors, and 7–8 external vendors.
- Standardized PMO templates, governance processes, reporting frameworks, and project controls, strengthening PMO maturity and organizational governance.

Relatient/Phreesia (US Healthcare SaaS)

2022- 2024

Project Manager | Senior Implementation Specialist

Directed enterprise healthcare SaaS implementations end-to-end, leading complex system integrations and the digital adoption program that made them stick.

- Directed & Managed end-to-end delivery of SaaS deployments across multiple concurrent client engagements from requirements and implementation planning through UAT, go-live, and post-implementation support.
- Led multiple enterprise SaaS implementations involving Salesforce, ERP, EHR, and API integrations, ensuring successful delivery through UAT, go-live, and post-implementation support.
- Increased client adoption by 40% through structured change management, stakeholder engagement, and training programs, turning system go-live into sustained usage.
- Developed executive dashboards and implementation performance reports that replaced manual tracking, improving project visibility and enabling faster leadership decision-making.
- Managed QA, UAT, go-live readiness, and post-implementation reviews to ensure solution quality, compliance, and successful project outcomes

DHL Express India Pvt Ltd

2012-2022

Project Management office Lead (2019–2022)

Senior Project Specialist (2016–2019)

Project Coordinator (2012–2016)

Progressed through three roles over a 10-year career, leading PMO governance, operational transformation, project controls, executive reporting, and continuous improvement initiatives.

- Led cross-functional transformation initiatives, implementing governance processes, project controls, KPI reporting, and executive dashboards.
 - Standardized project planning, governance, and reporting practices, improving accountability and delivery performance.
 - Partnered with senior leadership to prioritize strategic initiatives, monitor risks, and align delivery with business objectives.
 - Developed executive reporting dashboards that improved operational visibility and decision-making.
 - Drove continuous improvement initiatives that strengthened compliance, operational efficiency, and service delivery.
 - Mentored project teams and stakeholders on project management best practices, governance standards, and continuous improvement.
 - Progressed from Project Coordinator to PMO Lead through consistent high performance and leadership
-
